```java
public void print1() {
    for (int i = 0; i < currentSize; i++) {
        System.out.println("std fname: " + students[i].getFirstName() + " std id:"
+ students[i].getId()+ " std grade:"+ students[i].getGrade());
    }
    System.out.println("Lab AVG:" + avg);
}
```
